

Demine Robotics

National Mine Action Strategy

Goal 1: “Release all known landmine contaminated areas by 2025.”

Objective 4: review and enhance the existing operational systems and capacity” with the strategy to “diversify use of innovative technology in mine action.”

TECHNOLOGY ADOPTION CURVE

Everett Rogers – Diffusion of Innovations 1962

Transportation

Option 1

- 48 km/h
- 160 km max distance
- Rate: safety standard
- None restricted ground condition

Option 2

- 16 km/h
- 45 km max distance
- Rate: highly dangerous
- Restricted ground condition:
flat surface
